

Cherry Street Transportation

The street diagrams show the 2d layouts of different spots on Cherry St since the street features change between Front St and Garfield St.

Cherry Street is the busiest street in Sumas by vehicle traffic. As Cherry St nears the border the percentage of trucks increases. The 71x bus line serves Sumas five times a day on weekdays, 3 times a day on Saturday, and no buses run on Sundays. Paratransit operates within 3/4 mile of a fixed bus route. Of the two bus stops on Cherry Street, the stop near City Hall (Cherry St at 1st St) has a shelter and is accessible via the sidewalk whereas the stop across from Edaleen Dairy (Cherry St at Vancouver St) has no sidewalk or shelter. The sidewalks are also limited along Cherry Street with no sidewalk on the south of the Johnson Creek bridge on the eastside of the street.
